Certifications

- Software engineer at Teach2give
- Microsoft student learn ambassador

Skills

HTLM & CSS

JavaScript and Typescript

React, tilwind, materialUI, Daisyul, Ant design.

Hono and Drizzle-orm

Sql, Psql, neon

Figma design

Azure, git , github

Critical thinking, Teamwork, and problem solving.

Languages

Kiswahili

English

About me

I'm Cyrus Kimutai Omusee, a fourth-year Information Technology student at Kirinyaga University with a strong background in software engineering and web development. Proficient in JavaScript, TypeScript, HTML, CSS, SCSS, SaaS, Tailwind CSS, Material-UI, Ant Design, React, and Drizzle ORM, I also have experience with Figma for design. My technical skills are complemented by practical experience from volunteering at the Microsoft Google Student Developers boot camp and working on my final year research project. I'm passionate about solving real-world challenges and eager to contribute to innovative tech projects.

Experience

Teach2Give

May 2024 - August 2024

Software Engineering

During my time at Teach2Give, I collaborated on various educational initiatives aimed at improving digital literacy. I contributed to designing and implementing curriculum materials, focusing on practical coding exercises and web development concepts, which enhanced my skills in teaching and curriculum development.

Microsoft Student Learn Ambassador

Jan 2022 - Upto date

Technical traning and peer to peer Learning.

As a Microsoft Student Learn Ambassador, I facilitated workshops and events to introduce students to programming and web development. My role involved creating educational content, guiding hands-on coding sessions, and supporting students in their learning journey, which strengthened my communication and mentoring abilities.

Projects

Github url: <https://github.com/Mutai001>

I have actively participated in multiple projects, including developing web applications and designing user interfaces. These projects allowed me to apply my technical skills in JavaScript, React, and Figma, and provided valuable experience in problem-solving, teamwork, and delivering practical solutions to real-world challenges.
